RE: Antique Ticket Booth

Dear Mark:

I am writing to personally thank you for the exceptional work you did restoring the antique ticket booth that now truly is a focal point in our office reception area. The numerous ornate detailing that was completely missing previously, the high quality finish and the brass treatment all contribute to a beautiful "finished" product. Needless to say, I was pleased and surprised that it could look so good.

Thank you too for your personal interest in quality and obvious pride of your workmanship.

Sincerely,

A handwritten signature in blue ink that reads "Rich".

Richard J. Battaglia
